

Celestial by Ed Sheeran

[Verse 1]

G Bm D A
You see tonight, it could go either way Hearts balanced on a razorblade
G Bm D A
We are designed to love and break And to rinse and repeat it all again

[Pre-Chorus]

G Bm D A
I get stuck when the world's too loud And things don't look up when you're goin' down
G Bm D A
I know your arms are reachin' out From somewhere beyond the clouds

[Chorus]

G Bm D A
You make me feel Like my troubled heart is a million miles away
G Bm D A
You make me feel Like I'm drunk on stars and we're dancing out into space
G Bm D A G Bm D A
Celestial Celestial

[Verse 2]

G Bm D A
I see the light shining through the rain A thousand colours in a brighter shade
G Bm D A
Needed to rise from the lowest place There's a silver lining that surrounds the grey

[Pre-Chorus]

G Bm D A
When I get lost, will it come back around? Things don't look up when you're goin' down
G Bm D A
I know your arms, they are reaching out From somewhere beyond the clouds

[Chorus]

G Bm D A
You make me feel Like my troubled heart is a million miles away
G Bm D A
You make me feel Like I'm drunk on stars and we're dancing out into space
G Bm D A G Bm D A
